APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions;

This permit, to change the point of diversion of water heretofore appropriated under permit No. 4221, is issued with the understanding that no other rights on Cottonwood Creek will be affected by this proposed change. A substantial headgate and weir must be installed at or near the new point of diversion to facilitate the measurement and control of water at said new point of diversion. The State reserves the right to regulate the use of water under this permit at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.

The amount of water to be exchanged, shall be limited to the amount which can be applied to beneficial use and not to exceed nine tenths (0.9) of a cubic foot per second - the maximum amount allowed under permit No. 4221.

Actual construction work shall begin on or before July 24, 1921.

Proof of commencement of work shall be filed before August 24, 1921.

Work must be prosecuted with reasonable diligence and be completed on or before July 24, 1922.

Proof of completion of work shall be filed before August 24, 1922.

Application of water to beneficial use shall be made on or before July 24, 1925.

Proof of the application of water to beneficial use must be filed with State Engineer on or before August 24, 1925.

WITNESS MY HAND AND SEAL this 24th day of March 1921.
